CONFERENCE DESCRIPTION

Our 13th Annual Summer Conference on Women's Health is designed to provide physicians, certified nurse midwives, nurse practitioners, physician assistants, and nurses with **current information on women's health issues**.

The goal of this conference is to provide a comprehensive update and review on current issues in women's health. Emphasis will be placed on practical application of evidence-based presentations. In addition to didactic lectures, ample time has been allotted for participant feedback and interaction.

Topics for this year's conference have been selected based on extensive target audience needs assessment data resulting from professional practice gaps. These gaps are identified by a variety of sources including feedback and evaluations from past participants, clinical expert input, Symposia Medicus' online survey, and other medical and nursing data.

An outstanding faculty has been assembled for this conference that is committed to providing participants with current and practical information. Each member was selected based on individual area of expertise and ability to communicate first-hand, practical information with participants.

Morning sessions and one afternoon session leave ample time for exploring Paradise Island. We have also arranged a variety of group tours that allow for enjoyment of the area, as well as continued discussion relating to the conference topics.

You are sure to enjoy your participation in this conference while sharing ideas and experiences with colleagues from across the country at the exciting Atlantis Resort in the Bahamas.
