## CONFERENCE DESCRIPTION

Our **26<sup>th</sup> Annual Fall Conference on High Risk Obstetrics** has been designed for physicians, certified nurse midwives, nurse practitioners, physician assistants, nurses, and other healthcare professionals who face challenges in the care of the high risk pregnant patient.

The goal of this conference is to present current clinical data on key issues in the care of the high risk obstetric patient. Topics for this year's conference have been selected based on extensive target audience needs assessment data resulting from professional practice gaps. These gaps are identified by a variety of sources including feedback and evaluations from past participants, clinical expert input, Symposia Medicus' online survey, and other medical and nursing data.

The outstanding faculty have been selected based on their individual areas of expertise, ability to communicate first-hand knowledge to others, and commitment to address issues of current concern to attendees.

You are sure to enjoy this **26<sup>th</sup> Annual Fall Conference on High Risk Obstetrics** while sharing ideas and experiences with colleagues from across the country in the exciting setting of Anaheim, California.

## CONFERENCE OBJECTIVES

After participating in this conference, you should have an increased knowledge of, and be more competent to...

- Manage acute endocrine and hypertensive emergencies during pregnancy
- Avoid errors in intrapartum Electronic Fetal Monitoring
- Manage the severely obese pregnant patient
- Identify and avoid litigation hot spots in the pregnant patient
- Use a practical approach to manage cardiac disease in pregnancy
