*Ski lift tickets are non-refundable and non-transferrable*

Big Sky Resort has introduced a new system for ski lift tickets. *Radio-Frequency Identification* (RFID & also referred to as a Sky Card), refers to a lift ticket technology that stores digital data encoded and captured by radio waves. Most notably is that RFID is able to be read outside the line of sight. You simply place the media in a pocket to spend less time fumbling for your ticket, and more time on the slopes.
